

BillingPlatform Digital Commerce

A Single Solution for a Secure Payment Portal

Providing online visibility and control for B2B customers offers major rewards for companies who do it right. Enabling the self-service ability to configure and purchase services that may include one-time charges, recurring subscription services and usage-based service charges, combined with the ability to set-up payment methods and execute the recurring payment process over the life of the agreement requires a very different approach if you want the model to scale and succeed.

BillingPlatform offers such a solution. With the Customer and Payment Portal from BillingPlatform, you get a secure solution that can be tailored to your specific needs and create empowered customers that can take actions at any time within a fully branded interface. Utilizing this technology as part of your complete revenue management process means businesses and customers alike can see the following benefits:

- ✓ 24/7 access to view usage, download statements, view past payments, pay bills and manage payment methods
- ✓ Easy access to make one-time payments to enroll in autopay
- ✓ Lower operational costs for payment acceptance and reconciliation
- ✓ Reduce unpaid invoices and collection efforts
- ✓ Tailored user interface to meet your specific needs and branding requirements

As the industry leading cloud-based billing and revenue management solution, BillingPlatform provides full lifecycle support of the monetization process – from data management, product setup, quoting, billing and invoicing, revenue recognition, through payment and collections – all on a secure, next-generation cloud platform. The unparalleled flexibility of the platform puts enterprises in control of how they differentiate in the market, maximize profitability, reduce operational costs and improve the customer experience.
