

Customer Spotlight

About Vantage Towers

Vantage Towers is Europe’s leading tower company. Their infrastructure and technologies are creating better connections in an ever-changing, increasingly digital world. The company combines one of the continent’s largest network infrastructure with the best in-class services to deliver the most reliable, resilient, high quality and sustainable connectivity possible to enterprises, Communication Service Providers (CSPs) and the public sector.

Looking to streamline and automate billing, Vantage Towers sought a new solution to replace manual, disconnected processes to manage growth and delivery of new pricing models.

Vantage Towers’ Objectives

- Bill customers based on a complex and variable set of data points and charging types
- Automate and streamline business processes and workflows
- Unify quote-to-cash capabilities

BillingPlatform’s Solution

- Built-in, configurable usage processing to support complex products and services
- Streamline, automate and scale operational processes
- Enterprise-class security

Vantage Towers’ Outcomes and Results

✔ Bill customers based on geographic locations, type of infrastructure, tiers of usage and more

✔ Streamline and automate business processes with high data accuracy in a secure environment
